4.5 Star Employee Satisfaction Rating

Why choose Portland Catering Company Express over traditional vending?

- 1** We handle all the details. This turn-key food solution takes minutes to implement.
- 2** No cost to your business, other than a few cents a day in electricity to power the energy-efficient fridge. The small footprint of the machine makes placement simple.
- 3** Businesses have the flexibility to subsidize product prices for the benefit of your team.
- 4** More health-conscious and convenient than alternatives, serving multiple dietary needs throughout the day with access to full meals and snacks around the clock.
- 5** Convenient website link so users can check the contents of the fridge from anywhere.
- 6** Data-driven optimization provides us with feedback so we stock what your team craves, and gives us real-time updates to ensure we keep those items on the shelves.

Using the store is easy. Simply swipe a credit or debit card. This unlocks the door. Pick up an item for a closer look, and if you don't like it, put it back in the fridge. Once you've made your choice, simply grab your item(s), and close the door. The smart market automatically charges based on what was removed.
